Our Team Members are highly Professional, Experienced, Task Oriented, Trustworthy and full of energy, which has held us high for being recognized & considered as symbol of Excellence in the market.

In order to witness a **Win – Win situation**, we strongly believe to unfold our capabilities thus, to go beyond the expectations of our clients and suppliers. This has helped us in achieving our goals along with harnessing great relationship & rapport with our valued Customers across the region. We greatly value Integrity, Respect & Brotherhood as our wheeling elements which has helped us in going so far as a Company with a distinct Mission & Vision.

With the passage of time, we have evolved as a **‘One Stop Company’** expertizing in taking **various Projects**. Our major strength & expertise revolves around **Excavation, Demolition, Building Construction, Electrical works ,Heavy Industrial Equipment , Trading ,Hard & Soft Landscaping & Local Manpower Supply.**

We aim to keep going & retaining our good work & services in order to be referred as a **‘Company with a Substance’**. We anticipate to get recognition continuously for our dedicated Team Members, Business Ethics & Policies, Work Culture, & strength for providing uninterrupted services to our esteemed Clients.

We have evolved as one of the best Company because of our commitment backed by the support from the Clients in the region. Together, we look forward to be recognized as one of the most preferred & promising Business Partner in the region, Qatar & in entire Middle East through our **Business Expansion Program.**

VISION STATEMENT

Grand Rock Trading & Contracting aspires to be a leading & promising Business Entity of innovative technical products and support services in the state of Doha, Qatar. We aim to exceed the customer satisfaction into delight through provisioning high quality services based on integrity, value, and superior business standards.

MISSION STATEMENT

Grand Rock Trading & Contracting is a Company with a clear objective to provide an Exceptional, Customized & Flexible Services to our Clients. We truly comprehend the requirement of our Prestigious Clients & customize the Projects accordingly. We believe in being objective oriented, innovative, creative with a passion for hard work & sincerity. We also AIM to be the most trusted partner not only for the Region, rather for the complete Middle East through our upcoming BEP (Business Expansion Program).

VALUES

Grand Rock Trading & Contracting values comes from the commitment we keep towards the Projects & Clients. Majorly it covers three standards.

- Quality Management System
- Environmental Management System
- Occupational Health & Safety Management System

All of which are focused on how to deliver the Projects on time with regards to condition and quality. Thus, satisfying the over all stakeholders.

AREA'S OF EXPERTISE

Grand Rock Trading & Contracting's major scope of work covers All types of Heavy Equipment supply on Rental basis Excavation, Demolition, Maintenance, & other works upon the request of our Clients. Involvement, Guidance & Dedication from the Management to the staff greatly helps the Team to accomplish the Task & thus enables the company to provide full set of services to the Clients in accordance to the agreement made between the Parties.

EXCAVATION: GRAND ROCK TRADING & CONTRACTING HAS SUCCESSFULLY EXECUTED EXCAVATION PROJECTS IN QATAR

Grand Rock Trading & Contracting has a dedicated Team equipped with a fleet of equipment along with years of experience and ability to take on any excavation, road building, utility installation or site development you may have. We use the latest technology for undertaking Excavation Projects. We are recognized as one of the leading Company having an ability and domain knowledge to finish the Projects on or before the target. We have worked with & for reputed projects in the region. We are also experienced in permitting and designing of the same.

DEMOLITION: WE UNDERGO DEMOLITION PROJECTS IN THE ENTIRE QATAR

REGION

Our Demolition work includes but is not limited to performing asbestos abatement, removing hazardous or regulated materials, obtaining necessary permits, submitting necessary notifications, disconnecting utilities, rodent baiting, and development of site-specific safety and work plans.

Demolition of a building by Grand Rock Trading & CONTRACTING is accomplished as follows:

Hydraulic Excavators: It may be used to topple one- or two-story buildings by an undermining process. The strategy is to undermine the building while controlling the manner and direction in which it falls. Our demolition project manager/supervisor determines where undermining is necessary so that a building is pulled in the desired manner and direction. We undertake all necessary caution activities/safety measures as per Qatar Labour Law.

High Reach Demolition Excavators (HRDE): We too have High Reach Demolition Excavators for tall buildings where explosive demolition is not appropriate or possible. To control dust, fire hoses are used to maintain a wet demolition. Hoses may be held by workers, secured in fixed location, or attached to lifts to gain elevation.

Loaders or bulldozers: We use Loaders / Bulldozers equipped with "rakes" (thick pieces of steel that could be an I-beam or tube) that are used to ram building walls. Skid loaders and loaders will also be used to take materials out and sort steel.

We are aiming to use the latest technology which is **Computer-Controlled Hydraulic Jacks (CCHJ)** for supporting the bottom floor as the supporting columns when removed. This shall be introduced by us ASAP. This is safer, environmentally friendly, and can be used in the areas of high population density as being witnessed in Doha, Qatar.

HEAVY EQUIPMENT: THE MAJOR STRENGTH OF GRAND ROCK TRADING & CONTRACTING UNDERLIES THE SUPPLY OF HEAVY EQUIPMENT ON RENTAL
